The Bible has had an unprecedented influence on literature and history, especially in the Western World, where the Gutenberg Bible was the first book printed using movable type. According to the March 2007 edition of Time, the Bible “has done more to shape literature, history, entertainment, and culture than any book ever written. Its influence on world history is unparalleled, and shows no signs of abating.” With estimated total sales of over 5 billion copies, it is widely considered to be the most influential and best-selling book of all time. Attitudes towards the Bible also differ among Christian groups. Roman Catholics, high church Anglicans, Methodists and Eastern Orthodox Christians stress the harmony and importance of both the Bible and sacred tradition, while many Protestant churches, including Evangelical Anglicans, focus on the idea of sola scriptura, or scripture alone.

“Newton’s Principia is generally described as the greatest work in the history of science. Copernicus, Galileo and Kepler had certainly shown the way; but where they described the phenomena they observed, Newton explained the underlying universal laws. The Principia provided the greatest synthesis of the cosmos, proving finally its physical unity. Newton showed that the important and dramatic aspects of nature that were subject to the universal law of gravitation could be explained, in mathematical terms, with a single physical theory. With him the separation of the natural and supernatural, of sublunar and superlunar worlds disappeared. The same laws of gravitation and motion rule everywhere; for the first time a single mathematical law could explain the motion of objects on earth as well as the phenomena of the heavens. The whole cosmos is composed of inter-connecting parts influencing each other according to these laws. It was this grand conception that produced a general revolution in human thought, equaled perhaps only by that following Darwin’s Origin of Species, [Newton] is generally regarded as one of the greatest mathematicians of all time and the founder of mathematical physics” (PMM 161). “It is perhaps the greatest intellectual stride that it has ever been granted to any man to make” (Einstein).

Item #119684
LINCOLN, ABRAHAM; STEPHEN A. DOUGLAS

Columbus: Follett, Foster and Company, 1860. First edition, second issue with the Table of Contents on page ii of “the most important series of American political debates” (Howes L338). Octavo, original publisher’s brown cloth with gilt titles to the spine and elaborate blind stamping to the front and rear panels. In very good condition. Ownership name. $1,250

Although the debates were originally performed during the Illinois Senatorial race in 1858, they were published when both men became presidential candidates in 1860. Douglas won the race for senator, but the debates were his undoing in the presidential race, as Lincoln reminded voters repeatedly of the inconsistency between Douglas’ principle of “popular sovereignty”, in which the new territories would individually determine the status of slavery, and the Dred Scott decision in which the Supreme Court declared that slavery would not be excluded from the territories by Congress. As a result, Douglas was too tolerant of slavery for many northerners, and not vigorous enough for Southern Democrats. Somewhat surprisingly for an attorney, Lincoln did not seek Douglas’ permission to publish a book of their combined speeches, although Douglas was later given the last-minute opportunity—he declined—to make corrections to his own remarks” (Morris, 121).

The inscription penned by Gerald Smythe is dated 13 June 1909, during Smythe’s “sojourn in Lexington” with Lee in May and June 1909 [Confederate Veteran, January, 1921]. He believed in the greatness of the United States and the righteousness of liberty, and he defended them. On this solemn anniversary, Laura and I join our fellow citizens in honoring our 35th President." Near fine in a very good dust jacket. Jacket design by Phil Grushkin. Foreword by Allan Nevins. $3,800

The Pulitzer Prize-winning book was written when Kennedy was the junior senator from Massachusetts, and it served as a clarion call to every American. Now, a half-century later, it remains a classic and a relevant testament to the national spirit that celebrates the most noble of human virtues. Kennedy relates these heroisms to sketches of American politicians who have risked their careers for principle. "A man does what he must," he wrote, "in spite of personal consequences, in spite of obstacles and dangers and pressures-and that is the basis of all human morality." Item #112452

"MEMORY BELIEVES BEFORE KNOWING REMEMBERS": FIRST EDITION OF WILLIAM FAULKNER'S LIGHT IN AUGUST

FAULKNER, WILLIAM
Light In August.

One of William Faulkner's most admired and accessible novels, Light in August reveals the great American author at the height of his powers. Lena Grove's resolute search for the father of her unborn child begets a rich, poignant, and ultimately hopeful story of perseverance in the face of mortality. It also acquaints us with several of Faulkner's most unforgettable characters, including the Reverend Gail Hightower, plagued by visions of Confederate horsemen, and Joe Christmas, a ragged, itinerant soul obsessed with his mixed-race ancestry. Powerfully entwining these character's stories, Light in August brings to life Faulkner's imaginary South, one of literature's great invented landscapes, in all of its unerringly fascinating glory. "No man ever put more of his heart and soul into the written word than did William Faulkner. If you want to know all you can about that heart and soul, the fiction where he put it is still right there" (Eudora Welty). Item #109824

Churchill's only major work of fiction, Savrola: A Tale of the Revolution in Laurania describes events in the capital of Laurania, a fictional European state, as unrest against the dictatorial government of president Antonio Molara turns to violent revolution. Savrola is in many respects a traditional example of the "Rutianian" genre, being published just four years after Anthony Hope's classic adventure novel, The Prisoner of Zenda.

**FIRST EDITION OF MISSION TO MARS; INSCRIBED BY MICHAEL COLLINS TO BUZZ ALDRIN**

*Mission To Mars.*

New York: Grove Weidenfeld, 1990. First edition of this work by Michael Collins. Octavo, original half cloth. Association copy, inscribed by the author on the half-title page to Buzz and Lois Aldrin, "For Buzz and Lois with all good wishes- Mike Collins Dec. '90." An exceptional association, linking these two members of the Apollo 11 mission to the moon. From the library of Buzz Aldrin. Fine in a near fine dust jacket with some toning to the spine. $2,500

Mission to Mars is a well-written account of Michael Collins' blueprint for a 22-month mission to Mars that would depart Earth in June 2004. Collins, who piloted the Apollo moon mission in 1969, envisions the deployment of two mother ships (one for backup), plus two landing craft, and speculates on the possibility of a joint Soviet-U.S. mission, or a multinational cooperative effort. Despite an estimated pricetag of $200 billion for his scenario, "we'd still be spending more on cigarettes if the cost is spread over 15 years," he calculates. Going to Mars, in his opinion, "would be the salvation" of NASA, giving the agency a unifying vision and sense of purpose, while providing alleged spiritual benefits to the populace.

The Apollo program, also known as Project Apollo, was the third United States human spaceflight program carried out by the National Aeronautics and Space Administration (NASA), which accomplished landing the first humans on the Moon from 1969 to 1972. First conceived during Dwight D. Eisenhower's administration as a three-man spacecraft to follow the one-man Project Mercury which put the first Americans in space, Apollo was later dedicated to President John F. Kennedy's national goal of "landing a man on the Moon and returning him safely to the Earth" by the end of the 1960s, which he proposed in an address to Congress on May 25, 1961. 

Item #105483
First edition of this first-hand account of the genesis of America’s manned space program. Octavo, original cloth, pictorial endpapers, illustrated. Signed on the half-title page by John Glenn, Scott Carpenter, Wally Schirra, Gordon Cooper, and comedian Bill Dana aka Jose Jimenez. Jiménez was a fictional character created and performed by comedian Bill Dana on The Steve Allen Show in 1959 who became increasingly popular during the 1960s, and is cited in this volume on several occasions. This character introduced himself with the catch phrase: “My name... José Jiménez”. The character of José Jiménez caught on with the seven real Mercury astronauts, and Dana became good friends with them: “Okay, José, you’re on your way!” Deke Slayton quipped as Alan Shepard’s famous first flight launched. José became the program’s unofficial mascot, and Dana was even made an honorary Mercury astronaut. (Coincidentally, there was a real test pilot named Bill Dana, who flew as high as 59 miles up and qualified for NASA’s Astronaut Badge. Fine in a near fine dust jacket. Jacket design by Paul Bacon. A unique signed example. $5,500

MEIR, GOLDA

My Life.

My Life is "both frank and very revealing of her personality and goals. Her total lack of pretense is especially winning. Meir's practical idealism can be seen in efforts as diverse as the beautification of kibbutzim and her strong advocacy of unemployment benefits. The work that 'most concerned and interested me,' she writes, was 'the translation of socialist principles into the down-to-earth terminology of everyday life.' Although the political events narrated are well known they are recounted with drama and spirit. Don't mistake this for just chicken soup with riposte-noodles: it's a model of its kind and a sure crowd-pleaser" (Kirkus Reviews).

Martin Luther King Jr. was a Baptist minister and activist who became the most visible spokesperson and leader in the civil rights movement from 1954 through 1968. He is best known for his role in the advancement of civil rights using the tactics of nonviolence and civil disobedience based on his Christian beliefs and inspired by the nonviolent activism of Mahatma Gandhi. King led the 1955 Montgomery bus boycott and in 1957 became the first president of the Southern Christian Leadership Conference (SCLC). With the SCLC, he led an unsuccessful 1962 struggle against segregation in Albany, Georgia, and helped organize the nonviolent 1963 protests in Birmingham, Alabama. He also helped organize the 1963 March on Washington, where he delivered his famous "I Have a Dream" speech. On October 14, 1964, King received the Nobel Peace Prize for combating racial inequality through nonviolent resistance. In 1965, he helped to organize the Selma to Montgomery marches, and the following year he and the SCLC took the movement north to Chicago to work on segregated housing. In his final years he expanded his focus to include opposition towards poverty and the Vietnam War, alienating many of his liberal allies with a 1967 speech titled "Beyond Vietnam". In 1968, King was planning a national occupation of Washington, D.C., to be called the Poor People's Campaign, when he was assassinated on April 4 in Memphis, Tennessee. He was posthumously awarded the Presidential Medal of Freedom and the Congressional Gold Medal. Martin Luther King Jr. Day was established as a holiday in numerous cities and states beginning in 1971, and as a U.S. federal holiday in 1986. The Martin Luther King Jr. Memorial on the National Mall in Washington, D.C., was dedicated in 2011. Item #80020

On the Chiperoni, they bagged sable and rhinoceros, while in the Rusisi Valley near Lake Albert, the pair succeeded in bagging several elephant. Grogan ran into particular difficulty with the Dinkas and Nuers in the upper reaches of the Nile before finally making his way to Cairo. Voyage of the Liberdade.

Boston: Press of Robinson & Stephenson, 1890. First edition of Slocum's account of his fifty-five days at sea with his wife and sons aboard the 35-foot junk-rig The Liberdade. Small octavo, original cloth with gilt title to the front panel, patterned endpapers. From the library of James Stephen “Steve” Fossett with his bookplate to the pastedown. In very good condition. Rare and desirable. $3,000

After being stranded in Southern Brazil with his second wife and two eldest sons following the wreck of the unlucky Aquidneck, Slocum began work on a new boat that could sail them home. He used local materials, salvaged materials from the Aquidneck and worked with local workers. The boat was launched on May 13, 1888, the very day slavery was abolished in Brazil, and therefore the ship was given the Portuguese name Liberdade. It was an unusual 35-foot (11 m) junk-rigged design which he described as "half Cape Ann dory and half Japanese sampan". He and his family began their voyage back to the United States, his son Victor (15) being the mate. After fifty-five days at sea and 5510 miles, the Slocums reached Cape Roman, South Carolina and continued inland to Washington D.C. for winter, finally reaching Boston via New York in 1889. This was the last time Henrietta sailed with the family. In 1890, Slocum published the accounts of these adventures in Voyage of the Liberdade.

DARWIN, CHARLES

New York: Harper & Brothers, Publishers, 1846. First American edition of the publisher's reissue of Darwin's journals and remarks regarding his 5-year second survey expedition aboard the HMS Beagle. Octavo, two volumes in the original cloth with gilt titles to the spine, gilt vignettes to the front panels. From the library of Virginia bibliophile and historian Christopher Clark Geest with his bookplates to the pastedown. In near fine condition. Rare. $2,500

The Voyage of the Beagle is the title most commonly given to the book written by Charles Darwin and published in 1839 as his Journal and Remarks, which brought him considerable fame and respect. This was the third volume of The Narrative of the Voyages of H.M. Ships Adventure and Beagle, the other volumes of which were written or edited by the commanders of the ships. Journal and Remarks covers Darwin's part in the second survey expedition of the ship HMS Beagle. Due to the popularity of Darwin's account, the publisher reissued it in 1839 as Darwin's Journal of Researches (the present volume). Darwin's notes made during the voyage include comments hinting at his changing views on the fixity of species. On his return, he wrote the book based on these notes, at a time when he was first developing his theories of evolution through common descent and natural selection. Item #111051

FIRST EDITION OF HENRIK JOHAN BULL'S THE CRUISE OF THE 'ANTARCTIC' TO THE SOUTH POLAR REGIONS

BULL, HENRIK JOHAN
The Cruise of the 'Antarctic' to the South Polar Regions.

London: Edward Arnold, 1896. First edition of Antarctic pioneer Henrik Johan Bull's account of his voyage aboard the steamship 'Antarctic' in search of the elusive Right whale which, arguably, put the first men on the continent. Octavo, original pictorial cloth with gilt titles to the spine, gilt vignette of the 'Antarctic' to the front panel, frontispiece by W.L. Wyllie and illustrations by W.G. Burn Murdoch. From the library of James Stephen "Steve" Fossett with his bookplate to the pastedown. In near fine condition. A very sharp example. $1,500

Norwegian businessman and whaler Henrik Johan Bull was one of the pioneers in the exploration of Antarctica and, arguably, led the expedition which landed the first men on the continent (a claim disputed by sealer John Davis who asserted that he stepped onto the Antarctic Peninsula much earlier in 1821). Bull led the 1893 expedition aboard the Swedish steamship 'Antarctic', equipped with eleven harpoon guns, an arsenal of explosives, eight whaleboats and a thirty-one man crew. Over the course of the two-year expedition, they visited Tristan da Cunha, the Prince Edward Islands, Îles Crozet, Îles Kerguelen, the Balleny Islands, Campbell Island and Possession Islands. On 19 January 1895, a small party landed on Possession Island, a rocky island about 2 miles long. On 24 January 1895, a boat was put ashore with six men including Bull, Leonard Kristensen, Carsten Borchgrevink and seaman Alexander von Tunzelmann at Cape Adare, Antarctica. Item #111093

After striking an iceberg during her maiden voyage from Southampton, England to New York City in April of 1912, nearly 1500 of the passenger liner's 2224 passengers perished, making the event one of modern history's deadliest peacetime commercial marine disasters. Built by the Harland and Wolff shipyard in Belfast, the Titanic was the second of three Olympic-class ocean liners operated by the White Star Line and the largest ship afloat at the time she entered service. The shipwreck of the Titanic was discovered in 1985, over 70 years after the disaster during a U.S. military mission and remains on the seabed. The Titanic has become one of the most famous ships in history; her memory is kept alive by numerous works of popular culture, including books, folk songs, films, exhibits, and memorials.

tavel journal with reports from various exotic locales. Silverstein’s cartoons
appeared in issues of Playboy from 1957 through the mid-1970s. One of his
Playboy features was soon expanded into Uncle Shelby’s ABZ Book (Simon
& Schuster, 1961), Silverstein’s first book featuring new, original material
intended for adults. Because it was unclear as to whether some of the material
was intended for adults or children, his editor at Harper & Row, Ursula
Nordstrom, encouraged Silverstein to write children’s poetry, resulting in
a vastly commercially-successful and widely appreciated body of work.
Silverstein was additionally a prolific song-writer, he wrote the music and lyrics
for numerous high-charting singles, most notably Johnny Cash’s A Boy Named
Sue. A Giraffe and a Half is a collection of delightfully zany illustrations and
rhymes about a boy and his giraffe who find themselves accumulating a series
of ridiculous things. The book begins with the narrator imagining what could
occur if one “had a giraffe and he stretched another half.”

FIRST EDITION OF MILTON FRIEDMAN’S MASTERPIECE:
A THEORY OF THE CONSUMPTION FUNCTION

FRIEDMAN, MILTON
A Theory of the Consumption Function.

$2,750

This economist's masterpiece of economic theory "reinterpreted that Keynesian concept of the consumption function by relating it to lifetime instead of current income. For its ingenious manipulation of data and its reconciliation of apparently conflicting evidence, this book must rank as one of the masterpieces of modern econometrics" (Blaug, 63). "Milton Friedman offered conservative answers to the great questions of economics, at the same time challenging economic thought since Keynes. In this book, Friedman disputes Keynes' idea that aggregate spending and income are directly linked (and therefore open to government influence). Rather, he writes, consumers spend independent of government policy, based on their expected long-term, or 'permanent' income. In all his writing, Friedman embraces a laissez-faire approach that celebrates individual freedom. He sees the ideal role for government as 'umpire', not 'parent' (NYPL Books of the Century 144).

FIRST EDITION OF PETER DRUCKER'S LANDMARK WORK
MANAGEMENT: TASKS, RESPONSIBILITIES, PRACTICES;
SIGNED BY HIM

DRUCKER, PETER F.
Management: Tasks, Responsibilities, Practices.

"There are very few writers of whom one can say they invented an entire field of study: Peter F. Drucker is one. "Management" as a concept literally did not exist until Drucker’s groundbreaking work. In 1974, Peter Drucker published the book that would come to define the field. In this seminal work, Drucker explored how managers—in the for-profit and public service sectors alike—can perform effectively. Examining management cases with a global eye, Drucker laid out the essentials of performance, and of how a manager interacts with their organization and the social and cultural environment in which they operate. For three decades, managers and students of business worldwide have relied on Peter Drucker to prepare themselves to meet the challenges of an ever-changing business environment. The result is a book that—while still a fundamental work—has also slipped substantially behind the current business climate."

Selected by the Times Literary Supplement as one of the “hundred most influential books since the war”. It also placed tenth on the list of the 100 best non-fiction books of the twentieth century compiled by National Review and on Time Magazine's top 100 non-fiction books written in English since 1923.
